

**INSTRUCTIONS**

With the target at the 100y line, the shooter will place 15 rounds in a hat or box 25y behind the firing line (ammunition supply point). The shooter will then assume a good prone position behind the rifle, load and make ready with one round. They will sight in on the first circle. On the command BEGIN, the shooter will engage each circle with one round from left to right, top to bottom. They will have to retrieve each round, one at a time, from the ammunition supply point after each shot. The par time for this exercise is 8:00 in full kit, 6:30 slick.
